

12TH EUROPEAN CONFERENCE ON PESTICIDES AND RELATED ORGANIC MICROPOLLUTANTS IN THE ENVIRONMENT

18TH SYMPOSIUM ON CHEMISTRY AND FATE OF MODERN PESTICIDES

PESTIPOLL 2025

ALMERÍA (SPAIN)

12th-14th Nov 2025

Dear Colleague,

On behalf of the organizing committee, it is my pleasure to invite you to participate in the **12th European Conference on Pesticides and Related Organic Micropollutants in the Environment & 18th Symposium on Chemistry and Fate of Modern Pesticides**, which will take place from **12th to 14th November 2025** in the beautiful city of **Almería, Spain**.

PESTIPOLL2025 presents a vibrant three-day program featuring plenary lectures, oral communications, poster talks, and poster sessions. The conference is dedicated to highlighting the latest research breakthroughs in food and environmental safety across Europe and the Mediterranean region. It offers a unique platform for researchers, industry professionals, and domain experts to share knowledge, foster interdisciplinary collaboration, and tackle pressing scientific and regulatory challenges.

The program will explore a range of critical topics, including the detection and analysis of pesticides and organic micropollutants through state-of-the-art analytical techniques, modelling tools, and theoretical approaches. Special attention will be given to emerging concerns, such as the occurrence of micro- and nanoplastics in the environment and their potential impact on agroecosystems. The following topics will be addressed:

- Advanced MS spectrometry techniques.
- Chemical Contaminants in Food.
- Chemical Contaminants in water and soil.
- Micro- and nanoplastics (MNPs) in food and environmental samples.

Therefore, we encourage you to present your recent work at the workshop.

Both oral and poster contributions are highly encouraged and welcome.

We look forward to welcoming you to PESTIPOLL 2025 and to an engaging and inspiring scientific exchange.

We kindly ask you to disseminate this information among your contacts.
