

# 17<sup>th</sup> Annual Workshop on Emerging High-Resolution Mass Spectrometry (HRMS) and LC-MS/MS Applications in Environmental Analysis and Food Safety

October 14-15, 2021  
Ottawa, Canada

## Call for Abstracts

Dear Colleague,

On behalf of the organizing committee, it is a pleasure to invite you to participate at the [17th Annual Workshop on Emerging High-Resolution Mass Spectrometry \(HRMS\) and LC-MS/MS Applications in Environmental Analysis and Food Safety](#).

This workshop is a scientific meeting to foster dialogue among scientists in government, academia, and industry to further develop, investigate, and troubleshoot challenges related to advances in emerging HRMS and LC-MS/MS applications in environmental analysis and food safety. The main objective of the workshop is to evaluate practical applications of high-resolution mass spectrometry and tandem mass spectrometry to screening and quantification of organic contaminants in environmental and food matrices. The main theme of the 2021 workshop is Non-Target Screening with High Resolution Mass Spectrometry for Detecting and Identifying Emerging Contaminants Relevant to Human and Environmental Health and Food Safety.

Under current gathering and travel COVID-19 restrictions, we will be holding the 2021 workshop virtually. Please take a moment to explore the website and keep yourself informed of the latest updates.

Scientists presenting their research findings at the workshop will be nominated to [The Prince Sultan Bin Abdulaziz International Prize for Water](#) for a Distinguished Research Grant and Young Researcher Grants.

Therefore, we encourage you to present your recent work at the workshop. Both oral and poster presentations are accepted. Selected papers presented at this workshop describing state of the art applications will be published in the [MethodsX](#).

We are looking forward to welcoming you at the 17<sup>th</sup> Annual International Workshop on LC-MS/MS Applications in Environmental Analysis and Food Safety, on October 14-15, 2021.

Best regards,

Andrzej Wnorowski, Ph.D.  
Workshop Chair

### **Abstracts:**

Abstract submissions will be open between July 01 and September 01, 2021

Abstract acceptance / rejection confirmation by September 15, 2021

Late Abstract submission until September 30, 2021 / Acceptance by October 05, 2021

More details and online abstract submissions available on the website: <https://LCMSMS2021.ca>

### **Registration:**

Registration will be open between July 01 and October 8, 2021.

This workshop is free of charge to presenters and attendees (thanks to our generous support of sponsors). However, prior registration is required for admission to the workshop.

More details and online registration available on the website: <https://LCMSMS2021.ca>

### **Student Award:**

There will be student awards given to student presentations that are judged to be of the highest quality (presentations must be oral). The scientific committee will judge all presentations that are eligible (enrolment confirmed by your academic advisor) to determine the winners.

### **Contact us:**

If you encounter problems submitting your abstract using the online submission system or you need to contact the organizers, please use the following email: [LCMSMS2021@gmail.com](mailto:LCMSMS2021@gmail.com)
