

X NyNA 2022

INTERNATIONAL CONGRESS ON ANALYTICAL
NANOSCIENCE AND NANOTECHNOLOGY

Castilla – La Mancha (Ciudad Real), Spain

6-8 September 2022

The International Congress on Analytical Nanoscience and Nanotechnology – X NyNA 2022 will be held in Ciudad Real (Spain) in September 6-8, 2022, at the University of Castilla-La Mancha Installations of Ciudad Real (Spain).

The main goal of this Conference is to promote the development and the new knowledge on Analytical Chemistry concepts applied to Nanoscience and Nanotechnology under the following topics:

- ❖ Nano(bio)sensors.
- ❖ Nanomaterials for sample preparation.
- ❖ Analytical Nanometrology.
- ❖ Detection, characterization, and quantification of nanomaterials.
- ❖ Applied analytical strategies involving nanomaterials.
- ❖ Other nanotechnological applications and miniaturized nanosystems.

The meeting will be organized by the Analytical-nano-Group of the University of Castilla-La Mancha, with the collaboration of the Grupo Especializado Ciencia y Tecnologías (bio) Analíticas - RSEQ, and will take place at the at the University of Castilla-La Mancha Installations of Ciudad Real (Spain).

From the morning of the 6th to the afternoon of the 8th of September 2022, a programme with plenary lectures, oral communications, and poster sessions will be developed. A vendor session is also planned, where companies and institutions will have the possibility to advertise and give information about their products or activities. Different options will be offered, from exhibition stands to the organization of specific seminars or product launch events at the conference venue.

- ❖ A “Topical Collection” with selected contributions of X NyNA will be published in *Microchimica Acta* journal.
- ❖ Two Poster Awards by *Analytical and Bioanalytical Chemistry* journal

For further information, please do not hesitate to contact me.

Prof. Ángel Ríos. Chairman X NyNA 2022
